The Human Approach to Procurement

Procurement's primary objective is creating value for the organisation. This has always been the case, and always will be. What is subject to change, however, is our definition of 'value'. Once, and not so long ago, 'value' meant profit.

Capture the Power of Procurement in Mining

Procurement is always complex, but particularly so in mining. There are many roles that need to be filled and performed to a high level if KPIs are to be achieved. Each role needs to be clearly defined and a capability profile established.
